**T**HE absolute purity of the Royal Baking Powder makes it pre-eminently the most useful and wholesome leavening agent known. Containing no lime, alum, phosphate, or other impurity, it leaves no alkaline or acid residuum in the food, and its use insures pure, light, and sweet bread, biscuit, and cake, that are perfectly digestible and wholesome whether hot or cold, fresh or stale. Its leavening power has been determined the highest whenever tested by official authority, and physicians, chemists, and writers on food hygiene commend it for its sterling qualities.

#### LeCompte's Bottom.

Mr. U. V. Sargent, of Frankfort, is visiting his sister, Mrs. R. C. Hieatt, of this place.

Luke and Joe Kavanaugh sold in Louisville last week a large crop of tobacco raised on their farm last year by Mr. Adams. The best grade bringing \$24.50, sponge, \$9. The whole averaging \$15.

Our old friend and neighbor, W. M. Harrod, of Caldwell, Kansas, is visiting his friends and relatives here.

B. B. Graves and Mith. Harrod tried to renew their youth one night last week by calling the boys and dogs together and indulging in an old-fashioned coon hunt.

Married.—In Louisville, October 19, J. W. Hieatt, of Bagdad, to Miss Cordie Adams, of the same place. We are not acquainted with the bride, but Mr. Hieatt lived in this neighborhood for several years and has many friends here who congratulate him.

Owing to a meager appropriation, work on Green River has closed for this season and Capt. Jim Webb is expected home every day.

RIP VAN WINKLE.

#### Admitted the Facts.

Newspaper editors have to be very careful in opening their columns for statements. But aware that the Dr. Miles Medical Co. are responsible, we make room for the following testimonial from R. McDougall, Auburn, Ind., who for two years noticed a stoppage or skipping of the pulse, his left side got so tender he could not lie on it, his heart fluttered, he was alarmed, went to different doctors, found no relief, but one bottle of Dr. Miles' New Heart Cure cured him. The elegant book, "New and Startling Facts," free at J. W. Gayle's. It tells all about heart and nervous diseases and many wonderful cures.

#### A Horrible Railroad Accident.

Is daily chronic in our papers; also the death of some dear friends, who has died with Consumption, whereas, if he or she had taken Otto's Cure for Throat and Lung disease in time, life would have been rendered happier and perhaps saved. Heed the warning! If you have a cough or any affection of the Throat or Lungs call at Chapman & Williams' and get a trial bottle free. Large size 50c.

#### School District No. 34.

##### Editor Roundabout:

Please allow me to call the attention of the County Superintendent to the fact that the trustees of the above district are still neglecting their duty. A. Grover Cleveland, said in his letter of acceptance, that he was not afraid if they did accuse him of using trite terms and simple language, neither are we afraid if we are accused of fault-finding.

"Public officers are the agents of the people and it is their duty to secure for those whom they represent the best and most efficient performance of public work."

Our school-house has been erected for two years or more and the third school is now being taught and still there is no fence around the house to secure it from the stock that runs on the common. The boys are again hunting for the children's baskets. They walk in the house, if so disposed, if the door is open.

Neither have we any out-houses for the decency of the children, and some of the larger children suppress the calls of nature until they are dismissed in the afternoon and go to their homes.

In the language of our neighbors, "It is a burning shame."

The trustees will not so much

as furnish the teacher with a small box full of saw-dust to spit in and he is compelled (?) to squirt his tobacco juice on the floor, and there it remains for the children to tread in with their dirty feet. They never visit the school-house, which the law requires them to do once a week, to see if the teacher is doing his duty. He is left to do as he pleases. He may teach a legal school and he may not as they know.

In art. 8, section 6, common school law, the trustees are required to provide a school-house and construct such out-buildings and inclosures as shall be necessary to the protection of the property and to the comfort and decency of the pupils.

In section 7, same article, the trustees have power to collect one dollar per capita on each male in the district twenty-one years old, and twenty-five cents on each one hundred dollars' worth of taxable property, and if the trustees fail to build houses and construct out-buildings, &c., six months after being ordered to be done by County Superintendent, he is required to report to the failure of the trustees to the grand jury at its next meeting, which you Mr. Superintendent, have failed to do.

Please have the trustees erect an out-house for the decency of the children, nothing more is needed. Ample lumber was left over from building the school-house to build all necessary out-buildings.

A PATRON.

#### Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Gorton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took, in all, eight bottles. It has cured me, and thank God I am now a well and hearty woman." Trial bottles free at Phil. Carpenter's Drug Store, regular sizes 50c. and \$1.00.

HARDSDURO, KY., Sept. 7, 1892.

Messrs. DuBois & Webb:

DEAR SIRS—I have used Electropole seventy-five times, one hour each day in the past three months. I am satisfied that it is a valuable remedy in nervous prostration, dyspepsia and insomnia. In all of whom diseases it has proven satisfactory in my case. I have also known several cases of rheumatism to be relieved by the use of the Electropole. I purchased one last January. At the present time I am as strong and healthy in all respects as I was before the gripper attacked me last winter.

Very truly,

## SOCIETY POINTS.

Mrs. D. C. Knight entertained the Capital City Literary Club Tuesday evening at the residence of Mrs. L. Lindsey, on the South Side.

Judge and Mrs. W. H. Sneed entertained Monday afternoon at their cozy little home, St. Elmo, in honor of Mr. Ed. Bradley and wife and Mr. George Allen, of New York, and Mr. Wm. Bradley and bride, of this city.

The first meeting of the season of the Ladies Afternoon Euchre Club was held Wednesday at "Windy Side," the residence of Mrs. D. B. Walcutt. There were five tables and the game began at three and ended at 5 o'clock. Only fifteen of the twenty-five members were present, who, with the following invited friends, made up the game, viz: Mrs. John W. Rodman, Mrs. Nannie Duval, Mrs. J. M. VanDerwee, Mrs. John H. Stuart and Mrs. E. M. Geber.

The first prize scoring twelve was won by Mrs. Henry C. Murray. It was a china celery dish. The second prize, which scored eleven, was won by Mrs. E. Polk Johnson. It was a china pin tray.

Another euchre club, entitled "The Matrimonial," was organized this week among the leaders of society. The following list of members is a guarantee that the meetings of the club will become the most successful social entertainments of the season, viz: Mr. and Mrs. L. Labrot, Mr. and Mrs. Robert P. Pepper, Mr. and Mrs. Wm. E. Bradley, Mr. and Mrs. L. C. Norman, Mr. and Mrs. Ed. Hensley, Mr. and Mrs. J. B. Hendrick, Mr. and Mrs. Wm. Saffell, Mr. and Mrs. John W. Rodman, Mr. and Mrs. Geo. F. Berry, Mr. and Mrs. Sam

D. Johnson, Mr. and Mrs. Wickliffe Chapman and Mr. and Mrs. H. F. Duncan. The first meeting will take place at the residence of Mrs. Labrot the first week in November.

On Saturday evening, Oct. 15, the twenty-first anniversary of the birth day of their son, Mr. Ben T. Head, of Monterey, Mr. and Mrs. Joel T. Head entertained their friends at their home on Clinton street. Those present were Misses Dora Talbot, Parle, Florence Clemente, Shelbyville, Jennie Bond, Mollie Seebree and Lydia McCord, Stamping Ground; Irene Went, Lexington; Mamie Scott, Annie Lawler, T. Moore and Mrs. Mattie Wilhoit, Monterey; Mrs. Ada Garrett and Mrs. S. Klass, of this city; Mrs. Hettie Hichman, Cynthiaia; Mr. and Mrs. Lee French, Forks of Elkhorn; Messrs. R. C. Head, C. S. Duval, B. S. Calvert, W. Wilson, and Charleston Seebree, Stamping Ground; Ben D. Head, Switzer, C. Swann and Leonard Stegar, Owen-ton; George T. Schofield, N. H. Gray, Wm. Moore, D. G. L. Pryor, Monterey; Neville Garret, Ewald Kochritz and M. P. Davis, of this city.

The young gentlemen of the city gave a hop at the Capital Hotel ballroom Wednesday night which made up in general good humor and enjoyment what it lacked in attendance. There were but two visiting young ladies, present, Miss Fannie Herndon, of Louisville, and Miss Gertrude Green, of Covington, both of whom have often visited here and are quite well-known, but the home young ladies, who were never more bewitching in their personal attractions, heightened by the taste and elegance in their toilets, did not give the young gentlemen room to feel the loss of that pleasure in society which many people often experience in meeting strangers. There were a number of visiting young gentlemen present and a sufficient preponderance of the resident male attendance to keep the young ladies constantly engaged and prevent anyone of them from entertaining for a moment that dreadful thought that there could ever come a day when she would be a "wall flower" and rest unnoticed in her maidenly loveliness in the room where once she was the gayest of the gay.

Saxon and Trost, of Lexington, furnished the latest and most inspiring dance music out, and their perfection of tone, together with the most splendid ball-room floor in the State to move upon, left nothing wanting to make the hop one of the most delightful occasions of the season. The chaperones were Mrs. Stapleton Johnson, Mrs. J. M. VanDerwee and Mrs. D. B. Walcutt and the young ladies of the city who were present were: Misses Rebecca Johnson, Maria Pepper, Birdie Brown, Henrietta Blackburn, Christine Reynolds, Laura Pepper, Sue Morris, Annie Headley, Agnes Drane, Ella Johnston, May Pepper, Nellie Orblison, Lizzie Pepper and Eva Hoge.

Whooping cough, croup, sore throat, influenza, bronchitis, cold and cough are at once relieved and positively and permanently cured by Dr. Bull's Cough Syrup, the incomparable remedy for all pulmonary and throat affections.

## The Duke's Wife,

A beautiful play by James Sheridan Knowles, will be presented at the Opera House on the night of Oct. 27th by Mr. R. D. MacLean and wife, Miss Marie Prescott. It is with pleasure that we announce to our readers the opportunity of again witnessing Miss Prescott (a daughter of Kentucky, of whom we are all proud) in one of her favorite roles, viz: as Marianna in the Duke's Wife. This wronged but pure character is most beautifully interpreted by Miss Prescott, and as she leads her hearers up to her final vindication in which her loyalty is proven, one leaves the theatre feeling that they have not only been entertained, but they carry with them a most pleasurable sensation that they have learned a most beautiful lesson in charity. To say that Mr. MacLean is great in his part as the repentant but rollicking good for naught, St. Pierre, is only stating half the truth. Our people should be sure to visit these great artists on their appearance here, as it will be their last season upon the dramatic stage. A fact which is to be much regretted.

There is no use of any sniffling with the cholera, when Chamberlain's Colic, Cholera and Diarrhoea Remedy can be procured. It will give relief in a few minutes and cure in a short time. I have tried it and know—W. H. Clinton, Helmetta, N. J. The epidemic at Helmetta was at first believed to be cholera but subsequent investigation proved it to be a violent form of dysentery, almost as dangerous as cholera. This Remedy was used with great success. For sale by J. W. Gayle, Druggist. 1m

**GRAHAM C. WILLIS**—Deputy United States Marshal Con. McCarty on Saturday arrested Mr. Graham C. Willis, ex-assistant postmaster at Midway under Postmaster Cropper, and brought him to this city on the charge of embezzling \$130 of the post office funds. Mr. Willis gave bond for his appearance at an examination this week, and last Wednesday, before Commissioner William Olin, after the evidence for the prosecution had been taken and without the necessity to introduce testimony for the defense, the grounds of the accusation were adjudged unwarranted and Mr. Willis was promptly discharged.

**ERNEST CRUTCHER**—On Saturday afternoon while a number of boys were playing foot ball in Col. J. Stoddard Johnston's lot on Shelby and Second streets, Ernest Crutcher, a sixteen year old son of Mr. M. L. Crutcher, kicked at the ball simultaneously with Jake Vannmeter, when both boys fell and the foot of young Crutcher, as he was propelled forward, got fastened under Vannmeter, causing the leg to break just above the ankle. It was a very ugly fracture of the bone and will require a long period of rest for recovery, but Dr. Sam E. James, who was summoned to attend to the case, made the lad as comfortable as skillful surgery could insure.

**REPAIRS TO THE WOODEN BRIDGE**—New planks were put down this week where they were needed to replace worn out ones in the carriage-way of the old wooden bridge. There are

a number of defective places in both walk-ways which need attention. On the west side, especially, there is a plank in the flooring which generation after generation, in passing over it, has worn so thin that the edges will not hold nails, and it now is in a condition to push through and injure some one. Near the same place there is a plank off the side which makes an opening large enough to admit a child's body, and to avoid accidents of all kinds, and the liability in a damage suit, it will be a good idea for the city council and county court to go over the whole structure and make all the repairs that a safe precaution might suggest.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh and chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by J. W. Gayle, Druggist.

### THE CIRCUIT COURT.

The Business Transacted During The Week.

Judge Warren Montfort, who came to the city Saturday evening, opened the October term of the Franklin Circuit Court Monday morning. Mr. John S. Gaunt, the Commonwealth's Attorney, was present and ready to represent the Commonwealth, but owing to the delay in impaneling the grand and petit juries the court did not get down to work until Tuesday morning.

The grand jury was then impaneled and charged by the judge and they retired to their room to inquire into all offenses against the law committed since the last term of the court. Their names are as follows:

Reuben Brown, Foreman; Wm. Jones, V. Berberich, Cyrus Calvert, John Watkins, Polk Moore, R. A. Wilson, ex. John Hanley, Chapman Thomas, John Frazier, F. M. Shelton and J. W. French.

The two petit juries impaneled are as follows:

The case of John Brooks, colored, charged with inhumanly and cruelly whipping his step-son, Richard Romans, which resulted in the death of the lad, was tried Wednesday. The testimony adduced was such as to warrant the court in peremptory instructions to the jury, and a verdict of acquittal was accordingly rendered.

The following cases on the criminal docket were transferred to the Quarterly Court:

John Peyton, George Money, William Logan, Charles Taylor, all misdemeanors; Lewis Cohorn, two misdemeanors and one concealed weapon; Edward O'Nan, Jr., and John T. Johnson, carrying a pistol; Jack Estes, Ike Adams, Dan Roach and three others, gaming.

Charles Hutchinson, for assault, was fined five dollars and costs, and three others who were indicted with him were dismissed.

The case against James Gill, charged with the murder of Charles McFall, on the train at Jett's station more a year ago, was set for trial Wednesday week.

The trial of Ambrose Polsgrove for killing Jerry Williamson, on the corner of St. Clair and Main streets, on County Court Day last November, was begun Thursday morning. The Commonwealth is represented by Commonwealth's Attorney, John S. Gaunt and County Attorney L. F. Johnson, and the defense by Messrs. James A. Scott, J. A. Violet, Jno. W. Rodman and Robert B. Franklin.

#### On the Way to Paradise.

Let us hope that the people who habitually disregard their health will reach that desirable place, and avoid the locality which is less desirable as an eternal residence on account of the heat and surroundings generally. But while we tarry in this vale of tears, why should we voluntarily endure the tortures of dyspepsia when a systematic use of Hostetter's Stomach Bitters will rid us of the atrocious malady which—unless physicians are very much at fault—tends to shorten the term of our existence. Heartburn, Bilelessness, constipation almost always accompany this complaint and are symptomatic of it. These are all extinguished by the Bitters, which also conquers indigestion, flatulency, nervousness and debility. Since the appearance of "in grippe" it has shown a singular mastery over this formidable complaint that has carried off so many of our brightest and best.

### COLUMBUS DAY.

A Sketch of the Great Navigator's Life and a Report of the Celebration in This City.

Columbus was born in Genoa, Italy, in 1435 or 1436, the exact date being uncertain. His father was a wool comber of small means, but he contrived to have his son educated at the University of Pavia, where he applied himself especially to mathematical and natural sciences. At fifteen years of age he became a sailor and journeyed to every known country. In 1470 he arrived at Lisbon after a sea fight and wreck, and escape to land by a plank. In Portugal he married a daughter of a captain in the service of Prince Henry, called the Navigator, the first governor of Porto Santo, an island off Madeira.

It was about this time that he came to the conclusion that he could reach Asia by sailing in a westwardly course. He made known his belief to the Senate of Genoa, which refused to entertain his proposition to make the voyage. He then turned to King John II, of Portugal, but here he was also disappointed, and while his brother, Bartholomew, was journeying to England in 1484 to communicate the design to Henry VII, Columbus set out for Spain, where, eventually, after much discouragement and many promises unfulfilled and while in the act of leaving Spain for France, hope was revived at Palos, where he had halted at a monastery to ask for bread and water for himself and boy. Meeting Juan Perez, who had been the queen's confessor, Columbus was at length once more summoned to court, and after further disappointments, Ferdinand and Isabella, on April 17, 1492, signed the agreement to prepare the great navigator for his long and dangerous voyage. The expedition consisted of the Santa Maria with 90 men, commanded by Columbus in person, and two caravels, the Pinta with 39 men and Nina with 24 men. In all the adventurers numbered 120, and the fleet set sail Friday, August 3, 1492, and at two o'clock in the morning of Friday October 12, 1492, the island of San Salvador, in this great western hemisphere, was sighted.

That morning Columbus and his followers landed, and when they had "given thanks to God, kneeling upon the shore and kissed the ground with tears of joy for the great mercy received," the island was named San Salvador and possession taken for their Catholic majesties of Spain. On his return to Spain Columbus was received with the highest honors, and his wonderful discoveries were heralded over the world and started into existence voyages of discoveries by nearly all the European nations. Columbus made a number of voyages afterward to this hemisphere, and died in Valladolid, Spain, on May 20, 1506. He was buried at Valladolid, and his remains transferred to Las Cuevas, Seville. In 1536 they were exhumed and taken to San Domingo, and again, 1765 or 1766, they were disinterred and taken to the Cathedral at Havana, where they yet remain.

### THE CELEBRATION OF THE DAY.

Though his day has fixed the day of the discovery on October 12, and it was on that day that New York City celebrated, President Harrison, after making allowance for the changes in

time between the Julian calendar, which was in vogue at the time of the discovery, and the Gregorian calendar, by which the computation is now made, named in his proclamation Friday, Oct. 21, as the day to be set apart for the celebration throughout the country and for the formal dedication of the World's Fair at Chicago. The day in this city was not generally observed by the citizens but the banks closed, the Legislature was not in session and the post office was open but a part of the time. Among the State departments one half of the day was given up to the celebration and at the court-house the Circuit Court continued the trial of a murder case.

The fires of patriotism however burned bright in the hearts of the school children. At the Catholic Church, after appropriate exercises in the school, the children marched into the Church to the time of an inspiring air on the great organ presided over by Prof. Wayland Graham. High mass, was then solemnized and the choir and children sang the Te Deum. At night the children again assembled in the Church and sang patriotic hymns as "Hail Columbia" and "My Country 'Tis of Thee." Rev. Father W. E. Gorey delivered a splendid sermon on the life and character of Columbus and the influence and power of the Roman Catholic religion in inspiring and fostering the cause of the Great Navigator, from which such grand results have been achieved. The benediction then closed the services.

At the public schools, exercises consisting of reading, recitations and historical essays were conducted in every one of the rooms of the South Side, the West End and colored school. Flags, bunting and evergreens had previously been hung about the exterior of the buildings and the rooms beautifully decorated with golden rod, autumn leaves, mistletoe, evergreens, rosettes, designs, pictures and the national colors. The chapel of the South Side school was beautiful beyond description. The exercises began at ten o'clock and Rev. Father Gorey, in the chapel, offered the Columbian prayer. About eleven o'clock the children of the West End school arrived and all the children of the South Side school marched into the yard and took their places in front of the speaker's stand which had been erected for the occasion. Dr. U. V. Williams, President of the School Board, then read President Harrison's proclamation and "Columbia, My Land," was sung by the scholars.

A beautiful flag 13x21 feet was unfurled and hoisted on a staff on top of the school building and flung to the breeze at a height of about 107 feet. As the folds began gracefully to sweep out in the wind, the children saluted the flag by repeated huzzas, at which moment, 12 m., Capt. David O'Connell, of the Arsenal, fired a salute from the hill back of the school building.

The orator of the day, Rev. H. G. Henderson, then delivered an address on the "American Flag," after which "America" was sung by the entire audience and the exercises closed by a Columbian benediction by Rev. W. G. Neville.

At the colored school the same

order of exercises was gone through with and Dr. Eugene Underwood, colored, the orator of the day.

### NOTES.

Mr. Henry Williams, on the South Side, celebrated the event by raising a new pole on his grocery and livery stable and unfurling a handsome new flag.

Sower & Ahler had a large American flag suspended across Main street for the three days past during which Chicago has been celebrating the dedication of the World's Fair.

Prof. McHenry Rhoads, the Superintendent, deserves great praise for the success of the day's celebration. It is no easy task to prepare a program and train children to their parts in the performance.

The reading by Miss Cinnie Theobald of a Columbian poem was well performed with admirable effect.

The President's proclamation made the day a general holiday, and the statutes of Kentucky so declare it when the President issues his proclamation.

A well prepared essay on the rise and progress of the public schools was read by Miss Maggie Daniel. It was a feature of the occasion.

Mrs. Dora Ferguson and Messrs. Crutcher & Starks and the Delmonico restaurant were not wanting in patriotism. They had their stores decorated with the National flags.

A large number of people from the county were in to enjoy the day, and while the special venire summoned fifty to make up the jury in the Polegrove case, a great many more were on the streets shopping or watching the progress of the work on the street railroad.

A large crowd of people, mostly the patrons of the school, were in attendance at the celebration.

### The Old Original Remedy.

Sick people should not be deceived by pretenders who talk about "Microbi," "germs," "bacilli," &c., to sell their preparations, thus preventing people from buying the original tested medicine. "Radam's Microbe Killer" is what you need. It is now, and for years has been, making more cures than all other remedies combined. Read their advertisement in this paper. Don't be deceived.

Entertained by John T. Buckley.

Mr. John T. Buckley, who is the agent for the Charter Oak Stove of St. Louis, invited his friends and patrons this week to a public exhibition of cooking on this splendid range. On Wednesday, Thursday and yesterday the stove, which was in operation on the second floor of Mr. Buckley's store-rooms, on St. Clair street, was examined and its merits praised by a large number of people who afterwards enjoyed a substantial dinner cooked on it and spread for their entertainment. One of the many advantages of the stove is the wire gauze oven door, which admits fresh air into the ovens and causes the food to be baked evenly and thoroughly without the necessity to baste it every few minutes, or the fear that, as in the case of biscuit bread, it will be hard and tough or burnt on top. The philosophy is apparent to anyone, that a hot, tight oven will dry up the moisture in the air in the oven and the utmost care then is required to keep food from burning or becoming dry, hard and void of its natural flavor. This worry and trouble of housekeepers, the wire gauze oven door and other late improvements have overcome, by replenishing the oven with fresh air, without the addition of an ounce more coal than other stoves of equal size will burn. The stove is truly a blessing to cooks and to be appreciated it should be seen by all who contemplate purchasing such an indispensable article of household furniture. Mr. Buckley also has received and opened to the public on his lower floor the largest and handsomest lot of beautiful lamps, ornamental designs, bric-a-brac, fine china and cut glass ware to be found in the city.

### When Nature

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

### Accident to Stoddard Stanton.

On yesterday morning a vicious cow having gotten into Mr. T. L. Edelen's lot on the South Side, Stoddard Stanton, a son of Major Henry T. Stanton, attempted to drive her out when she turned upon him and struck him with her horns in the face, knocked him down and ran over him. The goring in the face tore open the lad's lip on the right side and knocked a front tooth out. Dr. U. V. Williams was summoned and found it necessary to take several stitches to close the wound in the lip, but otherwise there were no other injuries requiring attention.

A reported outbreak of cholera at Heinetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera, but dysentery, a disease which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Heinetta, says Chamberlain's Colic, Cholera and Diarrhoea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by J. W. Gayle, Druggist. 1m

### A Piece of Injustice Corrected.

Mr. Geo. L. Willis, the correspondent of the Louisville Times, in Tuesday's issue of that paper published a statement that the opinion of Gov. Knott and the Senatorial Address on Gov. Brown's veto of the Revenue Bill, which the ROUNDABOUT once printed, had not been paid for and that the printer was angry because he had not received his money. The story is false and malicious in the intention of Mr. Willis to go outside of legitimate news to drag a purely private matter into the State House rupture in order to sling filth against the opponents of the policy of Gov. Brown. The printing of these pamphlets referred to was long since paid for, and the ROUNDABOUT has no verbal or written contract or dealings for the work with any member of the Legislature. Such unreliable news, and on personal and not public matters, as Mr. Willis has often sent to his paper, is unworthy appearance in any newspaper. It is giving a mean advantage to an irresponsible writer who feels himself secure behind his own general debility and the protecting powers of the home publication office, but the ROUNDABOUT fortunately is able to take care of itself and correct an injustice done to its proprietor and its patrons.

### The Called Session of the Legislature.

The labors of the called session of the Legislature are drawing to a close. The Corporation and Revenue bills were passed this week, the former with the article creating the bank examiner stricken out, and the latter with the appointment of Auditor's agents remaining in the hands of the Auditor. The latter bill which, on its former passage, raised all the row between the Governor and the Legislature, and was vetoed because it did not receive a majority of the votes of all the members-elect on the concurrence in the conference committee's report, which the Governor construed to mean the final passage of the bill, received on the passage last Thursday a vote of 59 to 7 in the House, and 22 to 0 in the Senate. Besides these two bills, the Legislature at this session passed the other three vetoed bills, the Attorneys' bill, Fiscal Courts and Classification of Cities. Of the three remaining bills to which the Governor called the Legislature to act upon as having been approved by him, but which were in the same condition as the Revenue bill, viz: The Election bill, the Judicial Redistricting bill and World's Fair Appropriation, the Legislature rejected further consideration of the former, and refused to take any cognizance of the two latter. After the Corporation and Revenue bills have been enrolled, compared and signed by the speakers, and a sufficient time allowed for the Governor to sign or disapprove them, the called session will terminate and an additional expense of more than \$60,000 be fixed upon the tax-payers on the responsibility of some one who will be called upon later to hear it. The Legislature, after adjournment, will re-assemble on Nov. 15.

### The Street Railroad.

The railroad company is making every possible effort to put the finishing touches to the track and have the cars running at the very earliest moment. The frogs for the switches arrived the first of the week and a large force of workmen have been engaged every day and as late as 10 o'clock at night, laying the switches and making all the connecting links required, but until the new floor has been put down in the bridge the work of laying the rails across that structure will necessarily be postponed until one day next week. Residents now as far out as Col. John L. Scott's on the Versailles turnpike are endeavoring to raise a sufficient bonus to induce the railway company to extend its line to the limits of the city. This will increase the distance and make the railroad more popular with a large number of people who will patronize it for recreation and the pleasure of the ride, and will also bring in easy accessibility a large area of hill-top land that will make beautiful and most desirable residence sites. As yet the company have not taken action on the matter.

People call it backache and do nothing for it until the doctor is called and he pronounces it rheumatism. If they had used Salvadora Oil in time the doctor's bill could have been saved.
